WHO'S GOT GAME? (8+)

In this class students will learn the difference between a board game and a bored game as they create a playable game from scratch. After playing and analyzing various existing games, the class will discuss basic game theory and determine what makes a game work. Applying reason, strategy, and visual thinking students will then design their own game that will provide an ongoing project for the class. This class will improve student's critical thinking and design aesthetic skills through a fun activity.
